Dear President Nadauld,

I am an Alumnus from Dixie State College and have noticed something that concerns me about Dixie's support of Students. When looking at professionals, academia, and even graduate school programs I am seeing extra excitement regarding National Honor Society memberships. At the present time, Dixie State College is missing these accolades for their high honor students.

Some of these organizations are:

Alpha Sigma Lambda - Non-Traditional Student Honor Society
Golden Key - General Academic Honor Society
Beta Gamma Sigma - Business School Honor Society

Not only do Honor Societies like these recognize students, but many also offer scholarships that local chapters can nominate students to receive.

Organizations like this benefit the students, increase credibility and prestige of the school, and add to the prestige of the graduates of Dixie. As a whole, this would be a boon to the college. I would highly recommend working to add these organizations to the school and taking advantage of the benefits that they bestow upon the school and students.

I would be willing to sit on or just help a committee to work with re-establishing the presence of Honor Societies on the Dixie State College campus.

Thank you,

Steven Hansen

PS:

I thought you might like to know a little about me....

I graduated from Dixie State College in December of 2006 with a BS in Business Administration with the Internet & Visual Technologies concentration. Since graduating, I continued on and earned a Masters Certificate in Applied Project Management from Villanova University and have continued on to University of Massachusetts-Lowell to earn my MBA (on-line study). I graduated Cum Laude with my AS and BSBA from Dixie, completed my program with a 3.7 GPA from Villanova, and am currently holding a 3.48 at UMASS-Lowell.

*Downra,
What do
you think?*
