

DIXIE STATE COLLEGE
COURSE CHANGE FORM **SINGLE CHANGES ONLY**

Course Revision		X	Date of Request:		February 15, 2008
Course Deletion			Originator:		Karen L. Bauer
			Division:		Business, Science, & Health
			Department:		Biology
Revise/ Delete	Change*	Current	Change	Justification	Effective Semester
Revise	Pre-requisite	BIOL 3450/3455: General Microbiology with lab has CHEM 2310/2315: Organic Chemistry as one of its prerequisites.	Remove CHEM 2310/2315 as a prerequisite for the General Microbiology course.	Several of our biology majors are unable to register for the microbiology course during their junior year because they didn't take organic chemistry during their sophomore year. Dr. Warner will not make the micro course any less rigorous, but will help students a bit more in understanding the necessary chemistry.	Fall 2008
Revise	Permissi on change	Prerequisite for BIOL 2400/2405: Plant Kingdom is BIOL 1610/1615.	Add "or with instructor permission" to the current prerequisite.	Students that come in with sufficient biology background could then sign up for the plant kingdom course without having to first complete BIOL 1610/1615. Also, future plans are to list the plant kingdom course as Life Science General Education.	Fall 2008
Revise	Extend lab time from 2 to 3 hours	BIOL 3155: Intro. to Biometry Lab is currently two hours long.	Make BIOL 3155: Intro to Biometry Lab three hours long.	After offering this course twice, it is apparent that we need an additional hour of lab time to cover problem-solving techniques. This change will not affect student credit. It will still be a one-credit lab for them.	Fall 2008

*Changes for which this form may be used. If more than one change needed, please use the standard course change form. Number and name changes may be considered as one change.
