INTS 4890: Independent Study Course Addition Effective: Summer 2009	M: Curtis Larsen S: Darl Biniiaz	APPROVED	No more than 6 credits count toward graduation.
ESOL 0100: Intro to Listening & Conversation Course Addition Effective: Fall 2009	M: Curtis Larsen S: Glenn Webb	APPROVED (vote taken on all ESOL courses)	These groups of courses are for students who have <i>extremely limited</i> English proficiencies. These courses have TOEFL scores of 132 or below. These will be the “introduction” to the foundations of ESOL. Since these courses are remedial, if a student doesn’t show progress towards the next level, their VISA is in danger.

BIOL 2400: Plant Kingdom *LS Course Revision (GE Status) Effective: Fall 2009	M: Carole Grady S: Susan Ertel	APPROVED w/modification to prerequisite and course description.	Committee felt that a GE course shouldn't be a prerequisite for another GE course. They recommended that the prerequisite be dropped and that the course description be changed to reflect the omission of the prerequisite of BIOL 1610. Rick Palmer thought that BIOL 2400 will be more attractive to students and easier to sell to the students if the prerequisite wasn't on there. He stated that students see the prerequisite then flock to take the NFS 1020, Nutrition class because it has no prerequisite.

DISCUSSION ITEMS:			Item of interest was brought to the attention of the committee by Daphne Selbert. New accreditation requirement for labs. Because

			<p>we're facing accreditation and program reviews are being reviewed more strictly up north, lab requirements meeting 1 hr or 2 hrs we have to account for <u>3 hrs</u>. It doesn't have to be in the proposal, but does have to be in the syllabus. Three hours of work for 1 hr of credit. 2 hrs could be the lab, with an additional hour accounted for. 1 hour of credit requires 45 hrs of work. Can't be just two hours in class.</p>
