**Cc:** Bastian, Sheila  
**Subject:** # purged fall 08

**Importance:** High

Of the 6443 students counted in 3<sup>rd</sup> week enrollment, 3% or our headcount, or 209 were purged, bringing our headcount after dropping for non-payment to 6234. I understand that in a few cases, some students have been purged from only a couple of their classes, and are still enrolled in others. This is not standard practice; usually a student is dropped from all classes.

Total FTE of those 209 purged is 88.53, so most of this FTE would have been lost if the purge was done before 3<sup>rd</sup> week.

258 students have Holds on their records, most of those are the 209 dropped above. 49 are still enrolled in classes.
